

# Teman

Your AI Companion - Always There for You

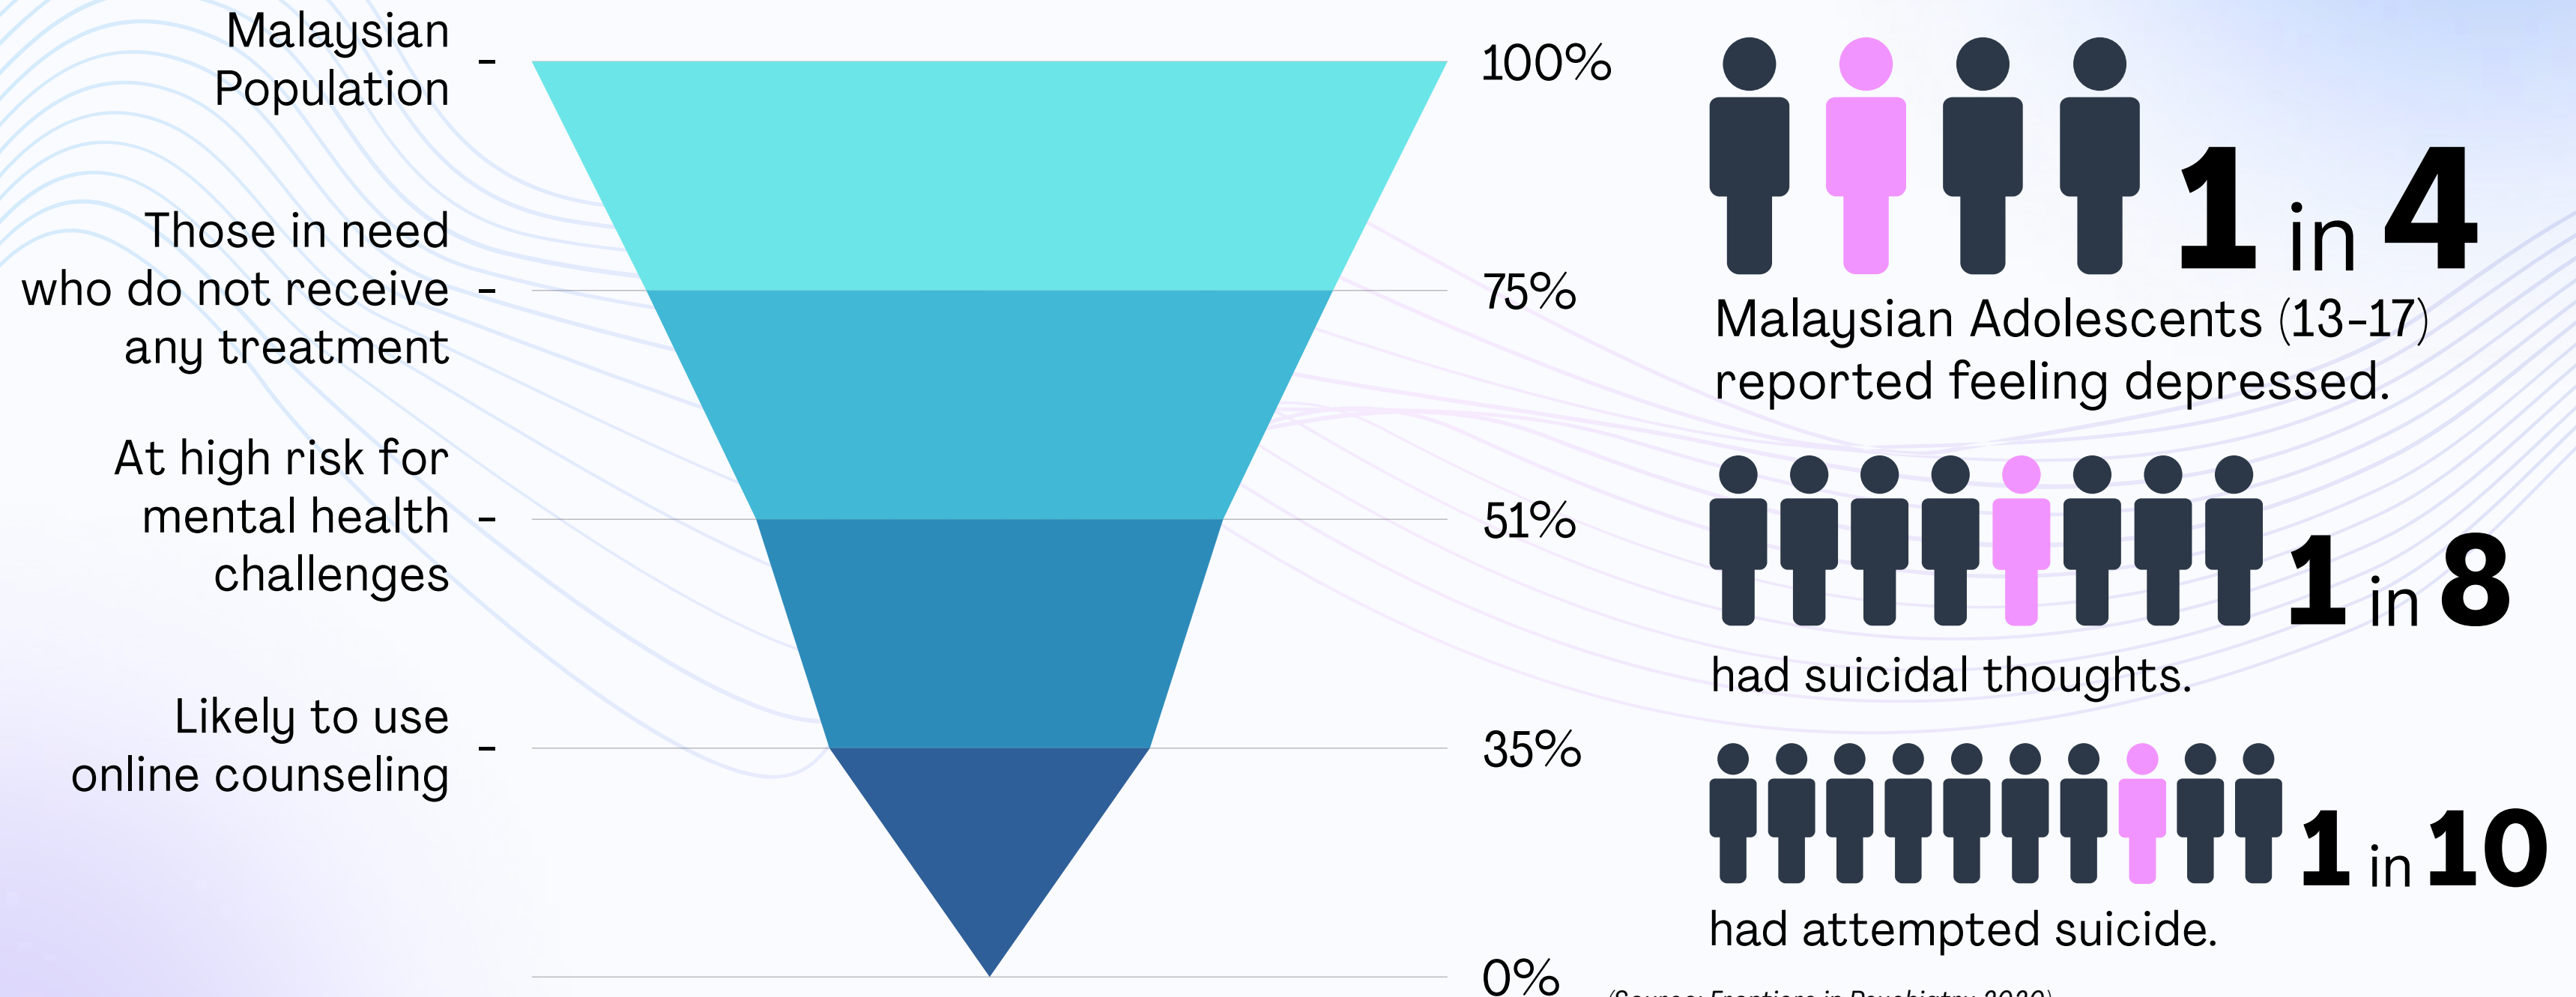

*Presented by Team Ctrl+Alt+Heal*

## Data & Statistics -

# Is Malaysia truly safe from a Mental Health Crisis

(Source: Frontiers in Psychiatry 2020)

(Source: National Health and Mobility Survey 2022)

(Source: Naluri)

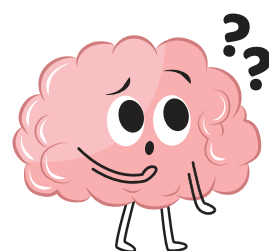

# Project Background - The Problem Statement: A Silent Crisis

## Paralyzing Stigma

Deep-rooted cultural factors prevent the vast majority  
**75%** of Malaysians **needing mental health support**  
from seeking help due to **fear of judgement.**

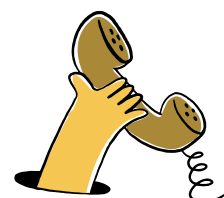

*(Source: Frontiers in Psychiatry 2020)*

## Navigational Confusion

Only **9%** of youth can **correctly identify depression**  
Extremely low mental health literacy combined with a fragmented system  
creates overwhelming "choice paralysis" for those wanting help.

*(Source: International Journal of Environmental Research and Public Health 2022)*

## Rising Crisis, Limited Access

Urgent distress calls are surging, yet immediate, accessible support  
remains scarce, particularly anonymous options.

**Helplines** see about **200 calls daily**

*(Bernama, 2025)*

What will it take for Malaysians  
to **feel safe reaching out for help?**

# Teman

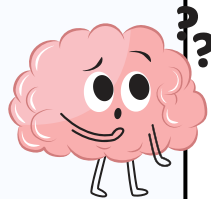

our innovative solution designed to address the **critical**,  
**unmet need** for **accessible** and **stigma-free** mental health  
support in Malaysia.

# Project Background - Bridging the Gap in Malaysian Mental Wellness

**Paralyzing Stigma**

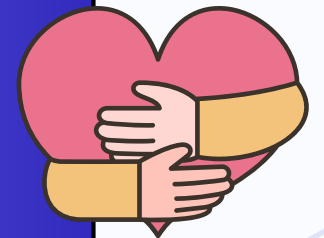

**Navigational Confusion**

**Rising Crisis,  
Limited Access**

**Anonymous Support**

**Intelligent Navigation**

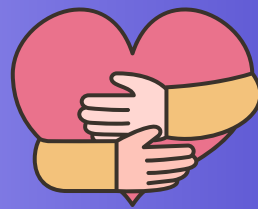

**Immediate Crisis Ally**

# Product Features

## Anonymous Support

Users can **engage 24/7** with our **AI companion** or peer groups without revealing their identity.

## Intelligent Navigation

Our “**Pathfinder**” guides users through the confusing resource maze to find **verified, localized help** when they are ready.

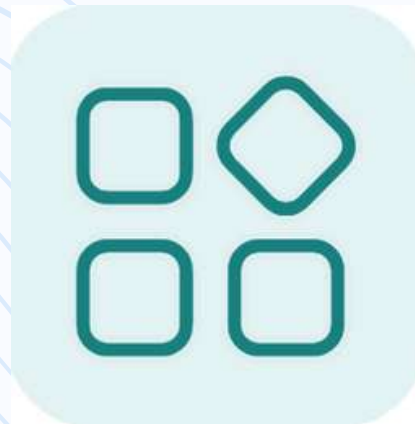

## Immediate Crisis Ally

Built-in **AI crisis detection** and a one-tap **connection to Malaysian helplines** provide a crucial safety net.

# HMS Kit Integrated

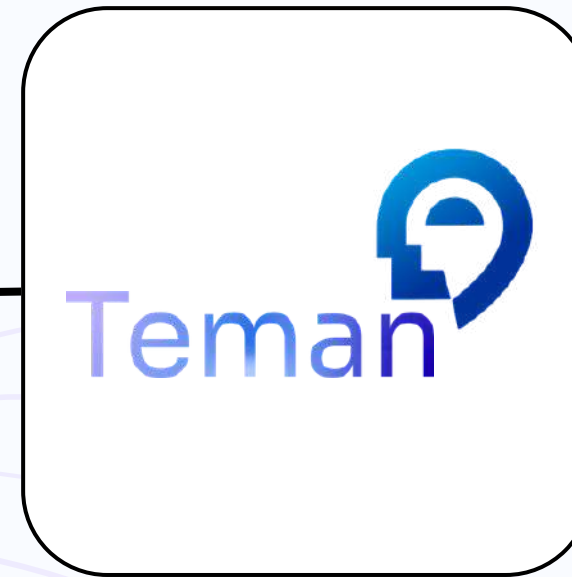

## App Services

**Account Kit** - Fast, Secure & Passwordless login for registered users

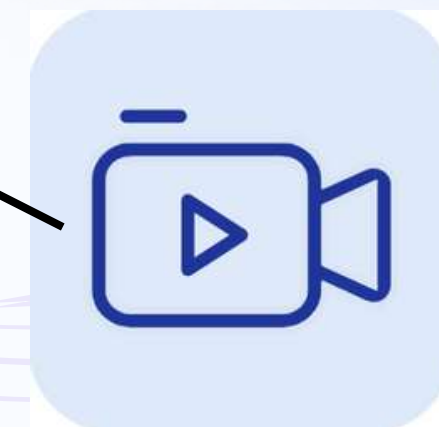

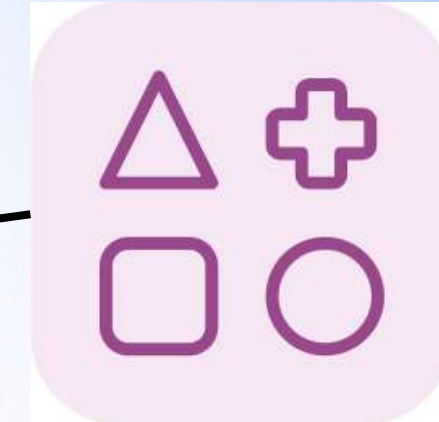

**Push Kit** - Deliver timely notifications & personalized wellness reminders

**Location Kit** - "Find Nearby Help" on Crisis Support, only after users consent

## AI

**ML Kit** - Natural Language Processing, Face & Body Detection, Automatic Speech Recognition, Text to Speech

## Media: Audio Kit & Graphics Kit

Transforms our Self-Help Library from static text into engaging experiences with **guided audio meditations** and **interactive visual exercises** (breathing guides).

# Competitor Analysis

| Feature             | Teman (Our App) | Local Tele-Therapy<br>(e.g., Naluri) | Global Wellness<br>(e.g., Calm) |
|---------------------|-----------------|--------------------------------------|---------------------------------|
| True Anonymity      | ✓               | ✗                                    | ✗                               |
| Localized AI Chat   | ✓               | ✗                                    | ✗                               |
| AI Crisis Detection | ✓               | ✗                                    | ✗                               |
| B2S Data Insights   | ✓               | ✗                                    | ✗                               |
| Clinical Screening  | ✓               | ✓                                    | ✗                               |
| Free Access Tier    | ✓               | ✗                                    | ✓ (Limited)                     |

# TEMAN Innovations: Addressing the Unmet Need

## **Stigma-Proof Access:**

Instant anonymous screening (PHQ-2/GAD-2) and support - no sign-up needed.

## **Localized TEMAN AI:**

Malaysian-aware AI using HMS ML Kit, fluent in 'Rojak' for relatable support

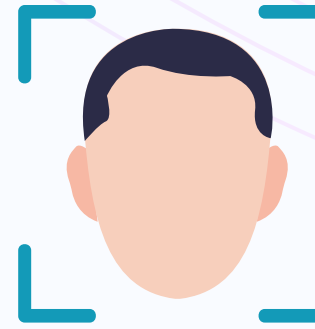

## **B2S Insights Dashboard:**

Delivers anonymized, actionable student well-being insights to universities.

## **Crisis Triage:**

**TEMAN** detects crisis cues via HMS ML Kit (NLP) to trigger instant support.

## **Mood Scan:**

On-device face detection enables private instant mood checks,

## **Voice Interaction:**

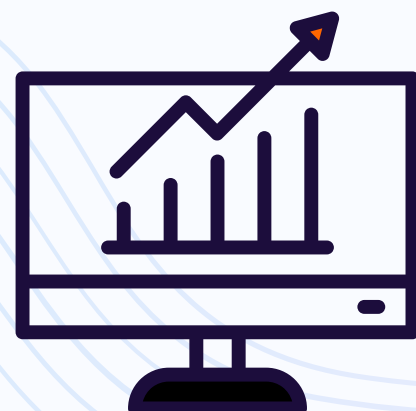

HMS ML Kit (ASR & TTS) let users talk and listen for effortless support.

# Business Value

## Growing Market Opportunity

- **High-Growth Market:** Tapping a \$9.97M+ Malaysian digital mental health market (growing at 15.4% CAGR).
- **Target Audience:** Initial B2S focus on 3.6M+ Malaysian students.

Teman

## Diversified Monetization Strategy

- **B2S SaaS (Main Income):** Sell annual "Insights Dashboard" licenses to schools and companies.
- **Freemium (User Growth):** Free anonymous app; paid "Teman Plus" tier (~RM 9.90/mo) for advanced AI.
- **Therapy Referrals (Future):** Earn referral fees for connecting users to professional therapy partners.

## Clear Social & Economic Value

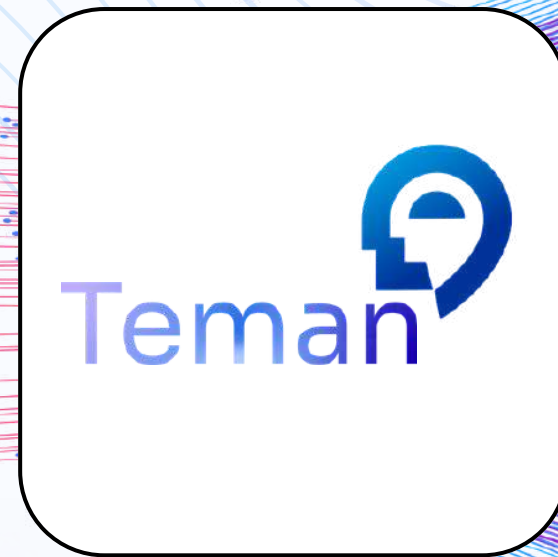

- **Cuts Institutional Costs:** Proactive dashboard insights reduce costs from absenteeism and crisis management.
- **Boosts Performance:** Fosters a healthier, more resilient student and workforce.
- **Reduces Stigma:** Our anonymous-first model normalizes seeking help.

# SDG Impact

## **SDG 3 (Good Health & Well-being):**

Providing accessible, scalable mental health support and suicide prevention tools.

## **SDG 4 (Quality Education):**

Enabling mental wellness, self-education, inclusivity, and emotional intelligence, enhancing learning and lifelong development.

## **SDG 10 (Reduced Inequalities):**

Offering equitable, free access to foundational mental health tools, regardless of income or location.

# Future Planning

## Today - 2025

Introducing our  
TEMAN application  
concept

## Phase 1 - 2025 to 2028 Foundation & Commercialization

Launch anonymous B2C  
app for mass adoption

Pilot with 3–5 universities  
to validate the dashboard

Refine TEMAN AI with  
local data and feedback

Integrate wearable  
data via HMS Health Kit

## Phase 2 - 2028 to 2030 Predictive Insights & Expansion

Develop AI predictive  
model for population risk  
forecasting

Add proactive alerts to the  
Insights Dashboard

Pursue MOH certification as a  
digital therapeutic

Expand regionally to  
Singapore, Indonesia & the  
Philippines

# Security & Data Protection

**Secure Authentication**

**Data Encryption**

**Privacy by Design**

**Safe Communication**

**Device Protection**
